• I am a passionate and detail-driven interior designer and artist with over 4 years of experience in art, design, and space planning. My creative journey began in Iran as a painter and graphic designer, where I earned my degree from Bozorgmehr University. I later worked at Asadi Photo Studio and Arno Wall Company, specializing in interior design and 3D sculptural art panels for a variety of spaces including homes, cafés, restaurants, pools, and medical clinics. After relocating to the United States in 2013, I continued to grow both professionally and academically, which I proudly completed at Palomar College. In 2020, I founded Chista Design Studio, where I combine my artistic vision with functional design principles to create meaningful and inspiring spaces... Throughout my artistic and design career, I have received several awards that reflect my dedication and creative, I am a self-motivated, organized, and innovative professional. I thrive in high-pressure environments and am committed to turning challenges into creative opportunities. My mission is to design beautiful, functional, and emotionally resonant spaces that enhance the quality of life for those who use them.
